Antioch's Tax Levy for 1943 To Be Reduced

Total Will Be \$11,225; Last Year's Was \$11,730

Antioch's 1943 annual village tax levy ordinance, accepted at a meeting of the village council Tuesday evening, will be \$505 less than the \$11,730 levied in 1942.

This saving to the taxpayer will be accomplished despite the fact that a total increase of \$500 has been made in the salaries of Marshal Fred Peterson and Superintendent of Streets William Thiemann.

The 1943 levy will be for \$11,225. The levy for 1942 was \$11,730.

The saving is due to several factors, village officials state.

No Public Benefit Levy

The public benefit assessments are all paid, and no assessment has to be passed this year—hence a saving of more than \$400.

The parks and playgrounds levy, which was \$1,000 for 1942, is being reduced to \$500.

A saving of \$55 was realized on interest on outstanding bonds. The village has \$4,500 outstanding in bonds. Annual payments are being paid to reduce the amount, and these also automatically reduce the interest. This year's levy is \$1,100.

It was found that the new stoker which was installed in the village hall has reduced the heating expenses, and the board decided that it would be possible to take \$50 off the appropriation for heating.

The total saving from all these reductions, \$1,005, still leaves \$505 clear after the \$500 salary increase total is deducted.

Trout and Bass Seasons Extended by Legislature

A number of changes in Illinois game laws were made during the recent session of the General Assembly.

The changes include: A fifteen-day extension of the open season on squirrels in the southern third of the state, making it last from July 15 to Oct. 15.

A fourteen-day addition to the open season on rabbits, which will now extend from Nov. 11 to Jan. 31 throughout Illinois.

The trapping season will henceforth be the same in all parts of the state—Nov. 15 to Jan. 31. It formerly was shorter than this in central and southern Illinois.

Under the new code, fishermen in northern and central Illinois will have a longer bass season. In the northern zone the season, formerly June 15 to March 31, will run from June 15 to April 30; in the central zone the new season will run from June 1 to April 15—fifteen days longer than formerly.

The new season for trout (except lake trout) will be April 1-Sept. 30, forty-five days longer than the old season.

Loses Control of Car, Crashes into Cemetery

Members of the Antioch rescue squad administered first aid Sunday night to Edmund Winstrop, 36, a Chicagoan visiting at Grass Lake, when his car crashed through an iron fence and rolled into the center of Grass Lake cemetery, finally coming to a rest against a tombstone.

Windstrap suffered several bad cuts from broken glass, but refused to be taken to a hospital. He was brought to Antioch, where he was treated by Dr. Irving L. Breakstone, and relatives and friends who were also staying at Grass Lake were summoned to call for him.

His car was completely wrecked. A bump in the road which threw the vehicle out of control was cited by Windstrap as the cause of the accident.

Mrs. Irna Thompson to Join Coast Guard Spars

Mrs. Irna Thompson, daughter of Mrs. James Elmborg of Morley's Subdivision, Lake Catherine, is leaving here to report for duty on August 9. She will report at the Coast Guard Academy at New London, Conn., where she will train for several months to become an officer in the Spars. Mrs. Thompson is a graduate of the University of Illinois, where she met her husband, Lt. Stanley Thompson of the Navy, serving his country somewhere in the south Pacific.

Mrs. P. T. Larson attended funeral services in Chicago Monday for her cousin, Leonard Holger.

Antioch News to Start 58th Year Next Week

The Antioch News will enter on its fifty-eighth year with the issue of August 12, 1943.

Founded by the late "Jno. J. Burke," an outstanding personality even among the highly individualistic editors of that day, the Antioch News from the start filled a leading place among the country weeklies of the state.

It was edited by Burke until 1901, when he sold it to A. B. Johnson. Johnson published the paper for 20 years, disposing of his interest at that time to the firm of Moran, Wood and Woodhead. Wood and Woodhead later sold out to Moran, who in 1926, in turn sold the paper to H. B. Gaston, former publisher of the Richmond Gazette, who is the present owner of the News.

The News has twice received recognition from the National Editorial association for its general merits and has also been honored by the Illinois State Press Association during the past few years. Few other weekly papers in the state of Illinois have received this recognition.

Persons who suffer from autumnal hay fever, which begins its annoying symptoms around August 15 as the ragweeds shed their pollen, may obtain relief in extreme northern Wisconsin, northeastern Minnesota, along Lake Superior, some parts of the upper peninsula, and the extreme northern part of the lower peninsula of Michigan, according to a bulletin issued by the Chicago Motor club.

The morning's mail brings a letter from S. N. Raynor, Lt. Col., U. S. Marine Corps Quartermaster's Dept., Depot of Supplies, 1100 South Broad street, Philadelphia, Pa.:

"The enclosed copy of our National Anthem goes forward to you with our compliments, as a small gesture of appreciation for your cooperation in bringing news of the Marines to your public."

"This, incidentally, is the officially approved arrangement, as agreed upon by all branches of our armed forces."

"A limited number of additional copies for you, or your subscribers, will be available upon request. Arrangements for bands and orchestras are also available."

The enclosed copy of the "Star Spangled Banner," as played by the United States Marine band, has the words and music of "The Marines Hymn," "From the Halls of Montezuma," printed on the back, as arranged by A. Tregina of the Marine Band.

The Office of Censorship at Washington issues a word of warning to editors and broadcasters:

The extent of current public discussion of radar is causing increasing concern to the Government.

The principle of radar is generally understood here and abroad, and some limited disclosures have been made officially. New methods of applying the principle are being developed, however, and there is much the enemy does not know.

The fact of prior publication should not be used to cover added description, discussion, and deduction, or to support a theory or draw a conclusion.

Radar is a secret weapon within the meaning of the Code. Editors and broadcasters are especially requested to be alert to every mention of radar and military electronic devices; to establish beyond all question that there is appropriate authority for every statement made; and to submit all material on the subject—other than that released by appropriate Government authority—to the Office of Censorship for review in advance of publication or broadcast.

So inclusive a request would not be made if the highest considerations of national security were not directly involved.

—Byron Price, Director.

Sal DeFily, 762 Grenshaw street, Chicago, and John Vitullo, also of Chicago, caught a 29½ inch pickerel weighing 4¾ pounds in Meyer's channel at Grass Lake. The fish was caught by "Sal." Charles Murgatroyd, 4027 Lowell avenue, Chicago, caught a 2½ pound bass in the same channel.

Mrs. William J. Meyer caught a two and one-half pound channel cat-

Legion Elects Floyd Horton New Commander

Delegates to State Convention in Chicago Are Announced

Floyd Horton was elected commander of Antioch Post No. 748 of the American Legion, at a meeting Thursday evening.

Earl Horton is senior vice-commander and Henry Harvey junior vice-commander.

C. L. Heath is the retiring commander.

New officers include F. A. Swenson, finance officer; Harry Messing, chaplain; Milton Parks, sergeant-at-arms; Raymond Webb, historian; Walter K. Hills, delegate to the Lake County Bogardus commission; C. J. White, assistant delegate.

The new commander and Vincent Nedbal will be delegates to the Tenth district, Lake county, with Henry Harvey, C. J. White and James Waters as alternates.

C. L. Heath and Commander Horton will be delegates to the department convention in Chicago, August 27-30. Appointments of committees will be made at the installation of officers in September.

The new commander was senior vice-commander last year, and Earl Horton was junior vice-commander. Other officers during the past year were Louis Horton, finance officer; Harry Messing, chaplain; Milton Parks, sergeant-at-arms; Raymond Webb, historian.

Auxiliary Officers

The Legion auxiliary unit officers for the coming year are Anne Heath, president; Lillian Hand, first vice-president; Maud Johnson, second vice-president; Carolyn Horan, secretary; Sadie Keeney, treasurer; Hester Garland, historian; Sine Laursen, chaplain; Clare Horton, sergeant-at-arms.

Eva Burnette and Anne Heath are the delegates to the department convention in Chicago, with Lillian Hand and Carolyn Horan as alternate delegates. Appointments of committees will be made at the installation of officers.

Preliminary Hearings Are Being Held in "Beer Case"

A preliminary hearing of the case of Erwin Brezina, Ingleside, head of the Brezina Distributing company of Antioch, was held early this week before U. S. Commissioner Edwin K. Walker. Brezina was involved in the matter of the disappearance of 485 cases of beer, being transported from Milwaukee to Chicago. He stated that the cases, found at his Antioch warehouse, had been sold to him as "damaged" by Walter Bartkowiak, 36, Milwaukee truck driver.

Bartkowiak's preliminary hearing was to be held before U. S. Commissioner Robert Jenkins in Milwaukee next week.

Bartkowiak, also known as Bartkowski, was captured by federal agents when he returned to his home in Milwaukee last Thursday, after disappearing the previous Saturday when he had sold the beer to Brezina.

Grand Circuit Harness Races Will Be Held at Wis. Fair Aug. 22-26

Topped by America's outstanding harness horse, King's Counsel 2:01½, 166 of the country's finest trotters and pacers are scheduled to face the starting barrier at the Wisconsin State Fair's Grand Circuit Harness Racing program, August 22-24-25-26.

Of the 16 races which have been scheduled, the 2:26 pace, the 3-year-old eligibles, has the largest number of entries with 20. The caliber of the competition in this race is indicated by two of the starters, King's Counsel, and Tru Single G 2:03.

A free-for-all trot to be held on the opening Sunday, August 22, also brings together one of the finest fields of trotters in the country. Five of the eight horses have a time of 2:05 or better.

Horse lovers will also enjoy the All-Wisconsin Horse show Sunday through Thursday night and the state championship horse pulling contests before the grandstand Saturday starting at 10:00 a. m.

Reports coming to Wm. T. Marriott, State Fair manager, indicate growing interest and enthusiasm on the part of adult exhibitors, Junior Fair participants, farmers, art show enthusiasts, and other fair boosters. The results will be larger and more interesting exhibits in all departments than had been anticipated.

fish on a hook and line the other day. He's resting in the ice box waiting for Friday . . . unrattled, too.

News of the Boys in Service

HAS SITUATION IN HAND

The (lady) marines landed (at Camp Lejeune, North Carolina) and soon had the situation well in hand, Pvt. Jeanette Keeney reported in a letter this week to her parents, Mr. and Mrs. V. J. Keeney of Antioch. The first "situation" that confronted them was unloading their baggage. Jeanette's car drew that "detail," and piled the baggage on two trucks.

Jeanette reports that so far, she has been issued "a little laundry bag" of cosmetics and other toilet articles, and a "sea bag." "I don't know what that's for yet," she says.

Her present address is (WR) Recr. Depot, Co. E-6 Bks. 118, USMC Women's Reserve, Camp Lejeune, New River, N. C.

Miss Keeney's father, telegraph operator at the Soo Line depot here, was a member of the AEF in the First World War, and received the first telegram telling of the signing of the Armistice on Nov. 11, 1918. He still has the original copy of the message.

First Lieut. Anton J. Graham, Company K, 9th Infantry, A. P. O. 2, Camp McCoy, Wis., writes, "There are now five of us from the Cermak estate on Channel Lake in the service. My uncle, Major Otto Kerner, Jr., is in North Africa; my cousin, Frank J. Jirka, Jr., is in the Navy V-12 training school at Purdue university; my brother, Captain Richey V. Graham, Jr., is stationed at Fort Lewis, Wash.; and my youngest brother, Robert J. Graham, is at Fort Custer, Mich."

George Hirschmiller, Trevor, has received word that his son, Corporal Robert Hirschmiller, of Camp Carson, Colo., has been promoted to sergeant in Battery A, 608th field artillery.

Harmon Smith Garwood, son of Mr. and Mrs. S. J. Garwood, Antioch, is stationed at the U. S. Naval Training station, Farragut, Idaho.

A visit to Silver Springs, Florida's famed underwater fairyland, was recently enjoyed as a highlight of the current Florida tour of duty of (continued on page 5)

Legion Opens Big Three-Day Carnival Tonight

Many Features Are Planned for Festival; Large Attendance Expected

Workmen were busy Wednesday and today setting up tents and booths for the annual Antioch American Legion carnival, which opens this evening on the grounds at the rear of the village park.

Amusements, rides and special entertainment will be features. Refreshments will be available, at booths conducted by Legion Auxiliary members.

The Legion carnival is always a popular event, and it is expected that this year's festival, which will continue through Sunday evening, will draw a good attendance.

In addition to the Legion and Auxiliary membership, a number of other residents of the community are combining their efforts to make the affair a success.

The funds raised by the Legion are used mainly to bring cheer to the boys in service, through gifts and other means, and for cheering disabled veterans and others worthy of help.

Lotus Flowers Are Now Blooming at Grass Lake

The lotus flowers, exotic denizens of Grass Lake, are in full bloom these days, in all their beauty, resort owners report.

No one has ever solved the mystery of how the famed flower of the Nile happens to be growing in this little lake in Northern Illinois.

It is found in one other spot in the United States, in New York state. The secret of how this graceful, formal oriental bloom came to make its home in such widely separated spots has never been adequately or even plausibly explained.

Meanwhile the blossoming lotus beds are drawing many visitors to the Antioch region these days.

High waters in Grass Lake have twice during recent years given anxiety lest the flowers had been drowned out, but each time, after a year or so of "rest," they have come back.

"Arnie and Marie" Begin Operation of "Roundup" on Hy. 21

Mr. and Mrs. Arnold S. Hanson ("Arnie and Marie") have begun in earnest this week to take over the operation of "The Roundup" restaurant and tavern on Highway 21-83 one-half mile south of Antioch.

Their former home was in Evanston, although "Arnie" was manager of Al Bailey's Cormaine roadhouse in Skokie before coming here. He has been in the tavern and restaurant business for the past ten years.

Mr. Hanson's parents, Mr. and Mrs. A. J. Hanson, are planning to make their home with their son and daughter-in-law here.

The new managers state that they intend to operate "The Roundup" with special attention to providing the best and most wholesome food and refreshments available under the present ration system.

"Black-Out" Is 98% Successful, Commander Says

Village Observance Nearly Perfect; Township Satisfactory, Vos States

The regional "black-out" test held Friday evening from 9:30 to 10 o'clock was judged "98 per cent satisfactory" in the village of Antioch, Roman B. Vos, township defense commander, stated.

The observance was also satisfactory in the township, Vos stated, in view of the fact that the region faces a serious shortage of wardens in summer since the influx of vacationists greatly increases the population in proportion to the number of wardens available.

The only mishap reported was the death of a pig, which had apparently strayed from some farm in the vicinity of Cedar Crest on Route 59, and was found lying in front of the 19th Hole. It was believed to have been struck by a car.

2,000 Wardens Take Part
More than 2,000 air raid wardens in 14 of Lake County's townships took part.

The alert sounded at 9:28 p. m., with the complete blackout at 9:38, and the all-clear at 9:58.

Maj. Gen. Frank Parker, executive director of the Illinois War council, has expressed the opinion that "considering that it was the first of its kind on a state-wide scale, it has been remarkably successful."

Repair Leak in Village Water Main At Mill

Vibration of Heavily-Loaded Trucks Is Blamed for Damage to Pipe Line

Further repairs were being made this week on the village water mains at the Antioch Milling company and the Methodist church.

A leak in the principal water main extending north under Main street was discovered when water seeped upward through the bricks in front of the mill.

The village street department was able to locate the break and weld it without shutting off the water. On Tuesday morning, July 20, the water had to be shut off for a short time while repairs were being made to a break in the water main leading to the church from the principal line.

While the mains under the downtown section of the village are quite deep underground, they approach close to the surface at the fill and arch over Sequoit creek, and in some places are only about six or eight inches below the surface of the pavement.

When the mains were first laid, back in the "horsepower" age 25 or 30 years ago, it was never thought that they would have to withstand the vibrations caused by huge transport trucks with 25 ton loads, passing over them at a fair rate of speed. Two or three tons comprised a sizeable load then. When first laid, the mains were covered only by a dirt roadway. The pavement was not put in until four or five years later.

School Lunch Program Gets Administrative Aid

A bill passed during the recent session of the Illinois General Assembly and signed by Governor Dwight H. Green authorizes school boards to enter into arrangements with the food distribution administration of the U. S. Department of Agriculture to sponsor school lunch programs. The Federal government will provide about \$3,500,000 for this purpose; and the state will reimburse the boards for the excess cost of lunches which are furnished.

Wilmot Fire Department Plans Carnival in Sept.

The Wilmot fire department will sponsor a carnival Saturday, Sunday, and Monday, Sept. 4, 5 and 6, at the Wilmot fire house. Games, refreshments and many amusement features are being planned.

Mr. and Mrs. Lewis Smith of Pawling, New York, are the guests of Mrs. Smith's cousin, R. A. Shultz and family this week.

A National Responsibility

The Lea-Bailey Bill now before Congress is a subject of debate because it involves the basic principle of Federal control versus local control, in this instance of the commercial airlines. During these days when a battle against bureaucracy is being waged to save representative government, expansion of Federal control is looked upon with skepticism. However, there are situations which require Federal jurisdiction, when states' rights are properly safeguarded. Regulation of the commercial airlines is an example. Among other things, the Lea-Bailey Bill would standardize air traffic rules and safety regulations, much as Federal supervision applies to shipping on our navigable waters.

Typical of the sentiment in favor of the bill is the comment of Representative Lyle H. Boren of Oklahoma: "In most fields of activity both states and nations have an appropriate role to play in their respective spheres. I, for one, believe that in recent years there has been a tendency dangerously to overlook the constructive role which can be and should be played by the states respecting many of the great problems of our democracy. But our long history has demonstrated, sometimes after costly and ill-advised experimentation, that there are some fields in which the nation must carry out full responsibility."

The Lea-Bailey Bill apparently recognizes the principle of states' rights and leaves room for state activities in the development and control of aviation. Sound integrated regulation of the airlines appears essential to their progress and public safety, but it must be accomplished with due regard to existing property rights of others.

Our Reservoir of Brains

One small army of war workers of whose existence we are more or less vaguely aware, is the group of American scientists who have worked tirelessly to overcome shortages of critical and strategic materials.

So successfully have they executed their tasks that the War Production Board is able to announce, as it has recently, that supplies of such materials had been increased to such an extent that no matter how long the war lasted, the United Nations generally would have enough to meet military needs.

Metallurgists and mineral experts are winning the Battle of Materials and proving that American technologists are more versatile and more comprehensive than German scientists. "These men of science," the WPB said in an announcement, "have broken such potential bottlenecks as the shortage of quartz crystals . . . they have stepped up aluminum production . . . they have made possible enormous quantities of magnesium. . . other similar and related activities have resulted in desperately needed increases in other critical materials and metals, including copper, chrome, manganese, and rubber."

These men have had the facilities and training of industry's largest research departments behind them. For American industry, always searching for new ideas, realizes the stark necessity for inventiveness now. It is that spirit of scientific pioneering which gave us the world's highest standard of living that now backs up our scientists in the nation's interests.

SALEM

Mr. and Mrs. Alfred Riese and children of Kenosha spent Sunday afternoon and evening with Mr. and Mrs. Alfred Schmidt.

Mrs. E. T. Manning and sons were Kenosha shoppers Saturday afternoon.

Mrs. Frank Schmidt and daughter, Mrs. Henry Frautichy and son, Henry, have returned from Sheboygan where they have been visiting Mr. and Mrs. Victor Thierfelder.

Pfc. Ray B. Patrick left Thursday evening for Wilmington, Delaware, where he is stationed. His parents, Mr. and Mrs. Byron Patrick and Mr. and Mrs. Lester Dix and Judith Ann, accompanied him as far as Chicago.

Mrs. A. C. Stoxen left Thursday afternoon to visit relatives at Mauston and Galesville, Wis.

Pfc. Robert Mooney left Saturday for Lowry Field, Denver, Colo., after spending a two weeks furlough with his mother, Mrs. Bertha Mooney.

Mr. and Mrs. William Krautkrammer spent Wednesday with Mr. and Mrs. Arthur Bloss, Sr.

Mrs. Gertrude Davis and Katherine

spent the week-end with Mr. and Mrs. Byron Patrick.

Miss Olive Hope was a Kenosha caller Thursday afternoon.

Mr. and Mrs. Milward Bloss and Miss Olive Hope spent the week-end with relatives at Bloomington, Wis.

Mr. and Mrs. Arthur Bloss, Sr., spent the week-end at the Milward Bloss home in Wheatland.

Mrs. Byron Patrick and son, Ray,

of Wilmington, Delaware, visited Mr. and Mrs. Leo McVicar Wednesday afternoon.

Friends from here attended the wedding of Miss Catherine Fox and William Kavanaugh at the Holy Name Catholic church at Wilmet Tuesday morning.

Mr. and Mrs. E. T. Manning and sons spent Sunday evening in Kenosha.

TREVOR

Mr. and Mrs. Peter Schumacher, son and wife, Mr. and Mrs. George Schumacher and infant daughter, Melrose Park were Tuesday visitors with the former's mother, Mrs. Ottilia Schumacher, and brother, John.

Mr. and Mrs. Joseph Smith and Mrs. Charles Oetting accompanied Mrs. Anna Stenzel of Wilmet to Burlington Tuesday morning.

Eric Gustafson was a visitor in Twin Lakes Thursday.

Binky Oetting, Riverside, is spending his vacation with his cousins, Arthur, Jr. and Freddie Bushing.

Mr. and Mrs. Charles Oetting called on Mrs. Katherine Yaw and Helen Kavanaugh, Camp Lake, Wednesday afternoon.

Mrs. Champ Parham accompanied Mrs. Willis Sheen, Miss Mary Sheen and niece to Waukegan Wednesday.

Mr. and Mrs. Fritz Oetting and daughter, Carol Lynn, near Richmond were Tuesday evening callers of his parents, Mr. and Mrs. Charles Oetting.

Mr. and Mrs. Herman Hellman, Mrs. Ida Dexter, Wilmette, and Mr. and Mrs. Henry Hellman spent the week-end at the Harry Dexter, Jr., home.

John Gever and Lee Wilson spent Friday morning in Kenosha.

Mr. and Mrs. Harry Parks, Chicago, spent over the week-end at the Diana Lodge.

Earl Vyvian, Union Grove, was a business caller in Trevor Friday.

Mrs. Lyle Wilson and children, Wheatland, visited at the Lee Wilson home Saturday. On Saturday evening Mr. and Mrs. William Galliard of Salem called at the Wilson home.

Fred Raymond of Burlington was a business caller in Trevor Saturday.

Mrs. Minnie Nehring and Valieta Byer of Paynesville, Minn., arrived Saturday evening at the home of the former's sister and brother-in-law, Mr. and Mrs. Joseph Smith, for a week's visit.

Mr. and Mrs. Henry Oetting, Oak Park, and Mr. and Mrs. Herman Bushing, Chicago, were Sunday afternoon visitors at the Charles Oetting home.

Mr. and Mrs. Maurice Lux, Bristol, were Friday evening visitors of her mother, Mrs. Ottilia Schumacher.

Mr. and Mrs. William Hanneman, Burlington, Mr. and Mrs. Elms and daughter, Louise, Antioch, visited the former's sister and Mrs. Elms' aunt, Mrs. Minnie Nehring, at the Joseph Smith home Sunday.

Marguerite Schultz of Salem is visiting at the Robert Lavenduski home.

Mr. and Mrs. Otto Leithke had as their guests Sunday their daughter and husband, Mr. and Mrs. Joseph Jetecek, Chicago, Miss Bernita Parrott, Iowa City, Iowa, and Paul E. Ganz, of St. Louis, Mo. Mrs. Joseph Jetecek, Jr., Wichita Falls, Texas, was also a visitor at the Leithke home Sunday.

Mr. and Mrs. Arthur Bushing spent Monday in Kenosha.

Klaus Mark and daughter, Elva, and Mrs. August Mark and son, Ronald, were recent visitors in Kenosha.

Mrs. Herman Hellman and Mrs. Ida Dexter, Wilmette, are spending a week at the Harry Dexter home.

Mrs. Joseph Smith, her sister, Mrs. Minnie Nehring and Miss Valieta Byer of Paynesville, Minn., and Mrs. Charles Oetting accompanied the for-

mer's niece, Mrs. Irving Elms to Richmond Sunday evening where they called on Mr. and Mrs. Fritz Oetting and daughter, Carol Lynn. They also called on Mr. and Mrs. Richard Lasco at Lake Benedict.

Twenty-five men from Trevor and vicinity got together Monday morning and showed a good neighborly spirit by setting up a field of grain for the Stanley Sakalowsky family who lost their eldest son, Stanley, in an accident at the Brass Works in Kenosha Saturday.

Sunday visitors at the Daniel Longman home were Mr. and Mrs. George Hellier, Mrs. Irene Hartnell and son, Cyril, Kenosha, Luther Graves of Concordia, Kansas, and Mrs. Kathryn Schreck, of Oak Park.

Miss Eleanor Forster is teaching a four weeks' course of life saving at a Girl Scout camp, at Camp Decorah, Holmen, Wis.

Mrs. Birdella Schwery has been staying with Jessie Pullen at Gurnee the past week. Miss Pullen passed away at the Waukegan hospital. She will be remembered by friends in Trevor, where she used to visit the Jake Drom family.

Mr. and Mrs. Charles Oetting have received word from their son, Cpl. Louis Oetting that he is stationed in the northern part of the New England States.

Miss Ruth Motherwell of Boston was a recent visitor at the John Barnette home.

Mrs. Vincent Scherrer and daughter, Judy, New Munster, spent Sunday and Monday with her sister, Mrs. Henry Prange, and family. On Sunday they visited their mother, Mrs. Harry Kerkman, at Brighton.

A number of Trevor people attended the wedding and reception of Dolores Moran and Mr. Pagel at Wilmet.

He Who Thumbs Last

Anti-aircraft gunners aboard a U. S. destroyer were having a hot time with diving Jap planes coming in most high to strafe the deck. One plane came so close that the gunners aboard the destroyer were able to see the Jap rear gunner with a smirk on his face and a thumb to his nose as the plane zoomed by. If the U. S. gunners had any available time they would have thumbed back at the Jap hitch-hiker for the destroyer's marksmen had already killed the pilot of the Jap plane and the craft was flying on its own. A few seconds later the plane crashed into the sea with the rear gunner still thumbing his nose. It was the last ride that Jap "thumbed."

Cork Grown Here in 1847

Cork has been growing in the United States for almost 100 years. An old cork oak in Virginia is said to have been planted in 1847. The largest cork oak in this country is in Napa county, California, at Napa state hospital. This tree measures 58 inches in diameter, 75 feet tall and evidently is close to 100 years old. Records of other cork trees indicate that they have been growing for at least 85 years and probably longer.

COMPLETE PROTECTION

for the ENTIRE FAMILY in ONE POLICY

Now you can protect your entire family . . . yourself, your wife, your children . . . with one policy in one company and with only one regular premium deposit! Continental has worked out a new different plan of personal protection . . . a plan which guarantees complete financial security for each and every member of your family. This unique plan of protection . . . the Continental Family Policy . . . is more than Life Insurance. It combines insurance and savings . . . liberal, two-way protection . . . for the entire family.

Your local agent will be glad to explain the many attractive features and advantages of this new plan of family protection.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D.
Of The Methodist Bible Institute of Chicago.
(Released by Western Newspaper Union.)

Lesson for August 8

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education, used by permission.

GOD SHOWS HIS PEOPLE THE WAY

LESSON TEXT—Exodus 13:17-22; 15:17-22.
GOLDEN TEXT—The Lord is my strength and song, and he is become my salvation.—Exodus 15:2.

The destinies of the nations are in the hands of God. Warriors are mighty in battle, counselors are quick to declare their wisdom, and diplomats are clever in the manipulation of wealth and people. But when they have all exercised to the limit their ingenuity and power they have only succeeded in bringing us "blood, sweat and tears" as the portion of all mankind.

Israel was about to be delivered from the bondage of Egypt, and God through His leader Moses was ready to be their guide. Even so He guides every believer in Christ. We may learn three things from this lesson.

I. God Has a Plan (Exod. 13:17-19).

There was a direct, easy road along the coast of the Mediterranean up to Canaan, but God with His pillar of cloud and fire did not lead out in that way.

How strange that He should take them by a longer, more difficult way! Not at all. He knew the danger of the easy way. It was there that the warlike Philistines would be lying in ambush. Such immediate conflict would discourage Israel and tempt them to return to the fleshpots of Egypt. So He took them the other way.

Note that God's guidance for them was one of intelligent planning, not just impulse or chance. He knew what to do, and He did it, for their good.

God has a plan, not only for the nations, but also for individuals, for your life and mine. Let us find His will for us, for it is good, acceptable and perfect (Rom. 12:1, 2).

Note the honoring of the faith of Joseph in God's promise (v. 19). The memory of his assurance was a blessing to his descendants, and they honored it and him. What will our descendants have to say about our faith in God?

II. God Provides Guidance (Exod. 13:20-22).

God's plan is made known to His people as they follow Him step by step. This means that there must be guidance, moment by moment, if His plan is to be worked out. He gives such guidance and it is only when His children fail to follow it that the pattern of life becomes confused.

The field of divine guidance is one in which Christians have widely divergent experiences. Some know the sweet, unconfused daily experience of God's hand upon them, caring for even the minor details (or are they minor?) of life. Others have known the directive power of God in some life crisis, but not in the ordinary affairs of life. Many, and perhaps most, think of divine guidance as a spiritual theory of which the preacher talks, but know nothing of it in their own lives.

What makes this great difference? Faith—or the lack of it. Those who trust God accept and receive His blessed leadership moment by moment. It is as simple as that. Others reach out and take it when the pressure of life makes them cast themselves on God. Others simply muddle along "doing their best," which is not their best, for God is not in it.

The pillar of cloud, which became luminous at night, was ideal for the guidance of Israel. It provided shade by day from the hot sun, and a sure guide in the darkness of the night.

III. God Gives Joyous Victory (Exod. 15:17-22a).

Israel soon came against the insurmountable barrier (humanly speaking) of the Red sea. Then Pharaoh, regretting that he had released them, came up after them—an impossible situation, and the people began to berate Moses. This time he stood fast in his faith and said: "Stand still and see the salvation of Jehovah"—and it came!

Then followed the song of victorious joy, which Moses wrote and the people sang. Deliverance brings joy, and forget it not, God is able to deliver those who put their trust in Him.

The application to our spiritual lives is a blessed one. Setting out on God's way does not mean that one will not have trials. They come, and quickly. We do not get farther than our Red sea when the world sees an opportunity to draw us back and comes charging at us from the rear, like Pharaoh. What to do? Trust God, and He will drown the Pharaoh who pursues you in the very Red sea which is now your difficulty. He will bring you through dryshod if you count on Him.

Fearful, fretting, fussing Christian, why not "stand still" and let God work out your salvation. You cannot bear the burdens of all the world. He can, and will set you free so that you too may go forward for Him.

LAKE VILLA

Lake Villa Community Church
Methodist-Rev. John De Vries, Pastor
Sunday School—10:00 A. M.
Worship Service—11 A. M.

The topic for the Rev. DeVries' sermon for next Sunday is "Talking About Others" and the Community church welcomes all.

The Official Board of the church met Wednesday evening with Mr. and Mrs. William Weber at their home at Sand Lake.

The Woman's Society of Christian Service held their annual summer sale last Thursday afternoon and evening and the ladies feel very grateful to all who helped to make it the success that it was. Your help is much appreciated.

Mrs. Swanson returned Saturday from a very pleasant visit with the Carl Sorenson family at Tomahawk, Wis. Mrs. Swanson and daughter, Mrs. Ruth Pollard were in Waukegan on Monday and visited Mrs. Evelyn Bjorstedt.

Mrs. Joe Nader was hostess on Tuesday last week for the Pinochle birthday club at a pot luck luncheon at noon followed by games of cards in the afternoon.

Mr. and Mrs. Wilbur Madsen are moving into the Peterson flat recently vacated by Mr. and Mrs. Frank Wood who have moved to Allendale Farm.

Mrs. L. J. Tweed and her daughters, Mrs. Joe Nader and Hazel Tweed, also her granddaughter, Marlene Nader, were guests of a friend, Master at Arms Jack Sherwood, at dinner last Sunday at Great Lakes Naval Training Station.

Mrs. Paul Avery was hostess for her Sewing club at a luncheon at her home on Tuesday.

Mrs. R. L. Tanner and family have moved to Chicago. They have been living on the Lehmann estate, and as Mr. Tanner has finished his radio course for the U. S. Army, they made the move.

Sleep-Killing Rooster Has No Place in City

TROY, N. Y.—Health Commissioner Dr. James H. Flynn approves raising hens in the city, but not roosters.

The rooster, Dr. Flynn said, is apt to keep sleeping war plant workers awake.

Due to food rationing, the city fathers are inclined to take a more liberal attitude on chickens.

Pigeon in RAF Flies 199 Times

She Gets Sick Leave After Surviving Barrage.

LONDON.—This is the story of "Bronzey," the most experienced pigeon of the RAF bomber command.

Bronzey has just been given sick leave and is temporarily out of action—but that's getting ahead of the tale.

Two and a half years ago, this pigeon enlisted in the RAF when her owner lent her to the National Pigeon Service for war work. Her job was to be ready to take messages back to base in case of emergency, and she went along in a yellow metal canister, which was her post aboard the bombers.

At first Bronzey flew in Wellingtons; then she graduated to four-engined Halifaxes. She traveled more than 160,000 miles and went out on operations 199 times. She was never air sick, not even in the most violent action, when the pilot had to hurl his bomber around the sky to escape bursting ack-ack fire.

But the 199th time Bronzey flew out in a Halifax bomber, the plane ran into a particularly hot barrage over an important target in Germany. It was hit several times, but managed to limp home. However, as it landed at its base, flames resulting from the damage burst from the fuselage.

Bronzey, in her metal canister, was trapped by the fire and her fellow crew members feared for her life. But when the fire was extinguished, she was found to be still alive, even though the canister was slightly scorched.

Examination proved that Bronzey was suffering from shock, and after the crackup she lost weight. So sick leave was prescribed. But her RAF buddies are positive that Bronzey will soon be back as good as new for her 200th flight over enemy territory.

Three-Year-Old Scatters Eggs Like May Flowers

TWIN FALLS, IDAHO.—"Boys will be boys," but sometimes they behave in a manner that is more or less startling.

Take the case of Robb Richard Smith, three, as recorded in the Times-News. This boy, according to the report, took eggs from the icebox and scattered them on the floor "like flowers in May." On another occasion he "backed up against the wall to get a good start and ran right through the front bay window."

But young Smith entered a new phase recently. His mother gave him cherries, and, to her horror, he consumed the pits. To prevent a recurrence of this catastrophe, she gave him a banana.

He ate it—skin and all.

HICKORY

Tom Webb of Grange Hall road visited the Curtis Wells family Sunday afternoon.

Thursday evening callers at the Warren Edwards home were Mr. and Mrs. Henry Beduski and family from Wadsworth, Mr. and Mrs. Harvey O'Hare and family from Waukegan and Mrs. May Lucas and Walter from Lake Villa.

Jerry Hunter visited his chum, Roger Noethling at Mundelein from Tuesday until Thursday night. On Wednesday they attended a ball game in Chicago.

Miss Grace Tillotson from Kenosha visited the E. W. King home Wednesday and stayed Wednesday night at the H. A. Tillotson home.

Mort Savage, Mr. and Mrs. A. T.

Savage and Miss Josie Mann visited the H. A. Tillotson home Thursday evening.

Mr. and Mrs. M. E. Van Patten and baby son visited relatives here from Thursday afternoon until Sunday. They took the train from Chicago Sunday afternoon on their return trip to Tullahoma, Tenn.

Mr. and Mrs. Paul Alshouse and family of Pikeville road visited the Warren Edwards home Sunday evening.

Miss Lillian Wells, Mrs. Curtis Wells and Mrs. Doolittle, Mrs. A. T. Savage and Miss Josie Mann attended the annual Home Bureau garden party held at the Viking home in Gurnee Wednesday afternoon.

Mr. and Mrs. G. A. Lange and Barbara from Hebron called at the Tillotson and King homes Sunday afternoon and evening.

Mr. and Mrs. M. E. Van Patten and son, John, were dinner guests at the Will Thompson home Saturday.

Mr. and Mrs. C. K. David from Hammond, Ind., were weekend guests at the William Horton home.

Mr. and Mrs. Carl DeBord and Leon and Virginia Belle spent Sunday at the Brookfield zoo.

Mr. and Mrs. Eddie Van Patten and baby spent Friday evening at the Guy Hughes home.

Rabbit Prepared Like Chicken
The domestic grain-fed rabbit produces a meat which is almost entirely white and can be prepared very much like chicken. Rabbit fryers of 3½ to 4 pounds, animals about three months old, are the most delicious. When properly killed, skinned and dressed, the carcass will average about 55 per cent of live weight, 82 per cent of which is edible meat.

ANTIOCH LEGION AND AUXILIARY MEMBERS

Invite the Public to Attend Their
Annual Summer

at Antioch

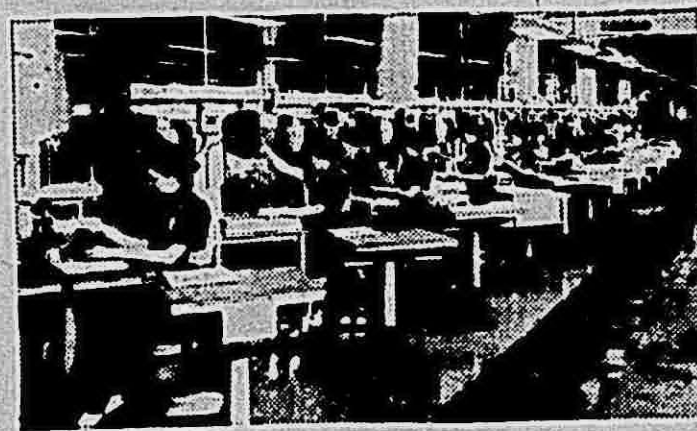

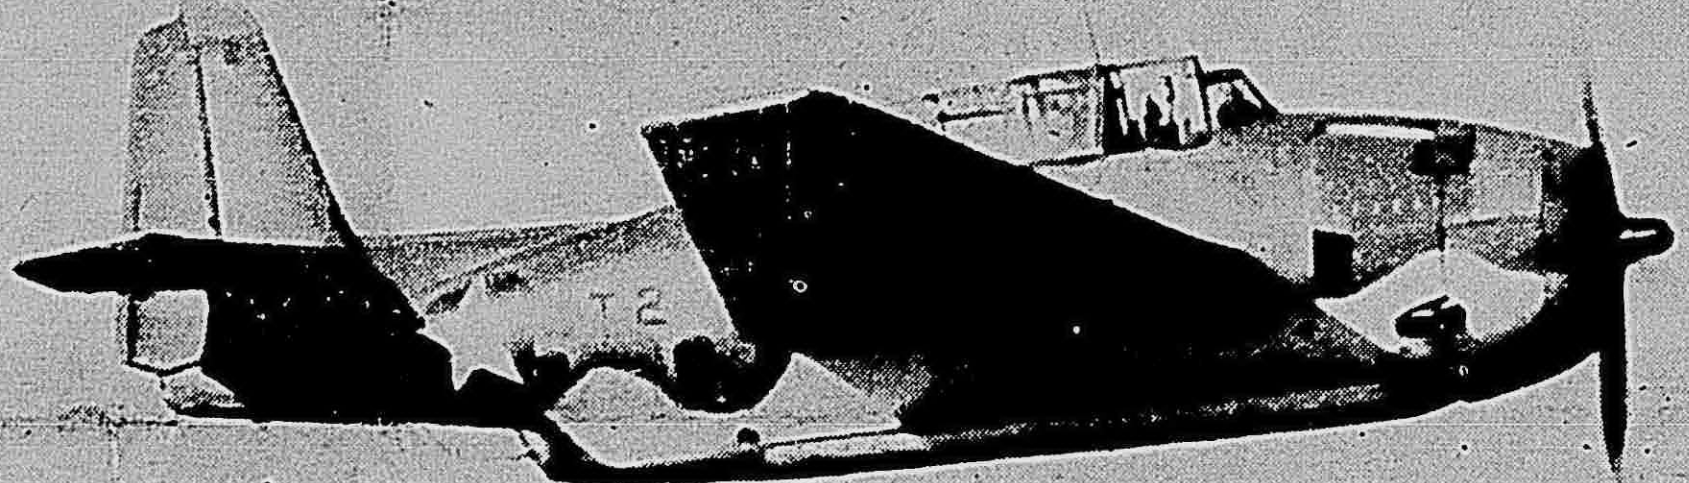

Thursday - Friday - Saturday
August 5 - 6 - 7

In the Rear of the Antioch
Village Park

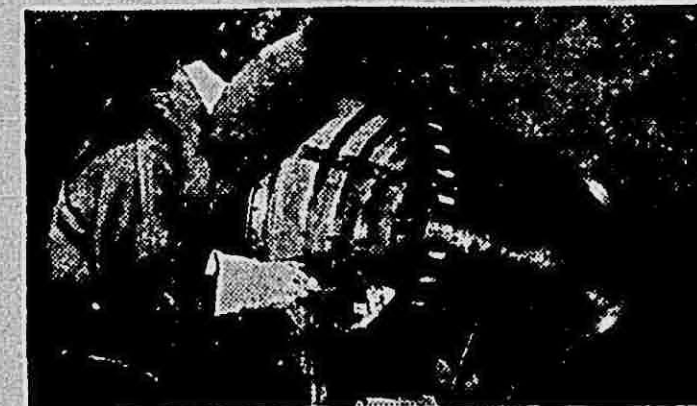

Rides, Games and Entertainment
for Old and Young

Dancing

One of the largest out door dance floors in
northern Illinois . . . and good, too, with good
music!

A battery of 16 drill presses operated by women. Electricity supplies the energy for the machines as well as for the efficient fluorescent lighting system.

A woman war worker with electric welder tacks reinforcing rings in the after-body of an aircraft torpedo.

A long row of aircraft torpedo after-bodies ready for the installation of gyroscopes which keep the torpedoes on a true course.

Skimming low over the Atlantic, a U.S. Navy torpedo bomber cuts loose its devastating "tin fish." Here in Northern Illinois, Electric Power is helping to turn out these aircraft torpedoes in mass production.

"Tin Fish Away"

The aircraft torpedo, or "tin fish" as the men in the Navy call it, is playing havoc with enemy warships, transports and tankers.

And the blows of these lethal torpedoes will become more and more frequent because Electric Power, the mighty force of mass production, is working day and night. Speeding every operation of manufacture—the cutting and drilling, the welding and fitting—Electric Power is helping to turn out these devastating torpedoes in vast quantities.

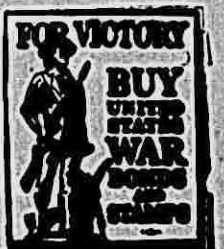

Electric Power is the silent, invisible energy behind the volume production of aircraft torpedoes and other implements for victory. It is the vital force that has made Northern Illinois a great war production center.

Electric Power Speeds War Production

Electricity has gone to war—don't waste it!

PUBLIC SERVICE COMPANY OF NORTHERN ILLINOIS

SOCIETY EVENTS

Ruth Thomas and Norman Jedeled Wed Today at Wilmot

Uniting in marriage two popular young people of this region was a pretty ceremony at which Miss Ruth Thomas, daughter of Mr. and Mrs. James W. Thomas, West Salem, Wis., became the bride of Norman Jedeled, son of Mrs. S. A. Jedeled of Antioch and the late Rev. S. A. Jedeled, this afternoon at 4 o'clock in Peace Lutheran church, Wilmot, where Rev. Jedeled was for many years pastor.

The bride wore a two-piece floor length ivory crepe gown, which was cut with a V-neck and had a lace collar and cuffs dotted with seed pearls. She wore a single strand of pearls, the gift of the bridegroom, and a headpiece of ivory ostrich feather tips and orange blossoms. Her bouquet was of orange blossoms and gardenias.

MISS RUTH THOMAS

Mrs. Arthur W. Fiegl of St. Louis, Mo., attending her as matron of honor, and Louise Schmidt, Milwaukee, bridesmaid, wore princess style gowns of silk jersey and net, in ice blue and dusty pink, respectively. Each had a headpiece of ostrich tips and tulle in a shade to match her gown. Mrs. Fiegl carried American beauty roses and gladioli, and Miss Schmidt, a sheaf of Talmian roses and gladioli.

Spencer Thomas, West Salem, brother of the bride, was best man and Elmer Rentner, Antioch, groomsmen; ushers were Robert Thomas, Burlington, brother of the bride and Arthur Fiegl.

The service was read by the Rev. H. O. Kleinhaus, Oshkosh, Wis., cousin of the bridegroom, assisted by the Rev. R. P. Otto, Wilmot.

Hans Von Holwede of Antioch played the Grieg wedding march for the processional and the Mendelssohn wedding march for the recessional.

"The Lord's Prayer," Malott, and "O Perfect Love" were sung by Mrs. H. O. Kleinhaus.

A reception for 50 guests was held at the Colonial club, Brown's lake, Burlington. For the ceremony and reception the bride's mother wore a navy blue sheer frock with matching hat and white accessories, and a corsage of cream colored roses. Mrs. Jedeled's frock was of a gray sheer material, with an Alice blue hat. The accessories to her costume were also in white and her corsage was of pink roses.

Mr. and Mrs. Jedeled have left on a wedding trip to northern Wisconsin.

The bride was formerly teacher of English and Latin at the Union Free High school, Wilmot. During the past two years she has been engaged in personnel work at the Boston store in Milwaukee. She is a graduate of the University of Wisconsin.

The bridegroom, a graduate of the Union Free High school and a Milwaukee business college, is a partner in the R & J Chevrolet Sales company.

PHYLLIS M. LUEDTKE IS GRADUATED AT ST. THERESE

Miss Phyllis M. Luedtke, daughter of Mr. and Mrs. Otto Luedtke of Loon Lake, was graduated from St. Therese's School of Nursing, Waukegan, Ill., on Sunday, August 1, at 3 p. m.

Mr. and Mrs. Luedtke and Mrs. Luedtke's mother, Mrs. Walter Panish of North Chicago, attended the exercises, together with Miss Luedtke's sister, Mrs. Charles J. Scott of Chicago, and friend, Mrs. Curtis M. Clendenning.

Miss Luedtke is the sister of Pvt. Richard P. Luedtke, U. S. Army, stationed at Ames, Ia., and Corp. Russell K. Luedtke, U. S. M. C. now serving overseas.

"ACHIEVEMENT DAY" IS PLANNED BY 4-H GIRLS

An "Achievement Day" program which will be open to the mothers and friends of members will be held by the Antioch Girls' 4-H club Aug. 11. It was announced following a meeting in the home of June Kutil, North avenue.

A talk on "The Care of the Teeth" was given by Elsie Farnsworth. Norma Jarnigo gave a talk on "Good Complexion," Nancy Reeves one on "Care of the Hair," and Betty Jean McDougall had the topic, "What Pattern of Cloth Is Flattering to Your Figure?"

WESLEY CIRCLE WILL HOLD BAKED GOODS SALE

Home baked goods will be sold by the Wesley Circle on Saturday, Aug. 14, in the Antioch News office. Donations will be appreciated, it is announced.

A reading room is maintained at the above address and is open Wednesday from 2 to 4 and 7 to 8, and on Saturdays from 2 to 4 o'clock.

CHRISTIAN SCIENCE CHURCHES
"Love" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, August 1.

The Golden Text was, "O God, thou art my God; early will I seek thee: . . . Because thy loving kindness is better than life, my lips shall praise thee" (Psalms 63: 1, 3).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Beloved, let us love one another: for love is of God; and everyone that loveth is born of God, and knoweth God. . . . He that loveth not knoweth not God; for God is love. . . . No man hath seen God at any time. If we love one another, God dwelleth in us, and his love is perfected in us" (1 John 4: 7, 8, 12).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Spirit, Life, Truth, Love, combine, as one, — and are the Scriptural names for God. All substance, intelligence, wisdom, being, immortality, cause, and effect belong to God. These are His attributes, the eternal manifestations of the infinite divine Principle, Love" (P. 22).

Watch Potato Seed
In selecting potatoes for seed, remove all tubers which have the sunken surface spots or areas that denote they are infected with late potato blight.

St. Peter's To Hold Annual Party Thursday

St. Peter's church of Antioch is sponsoring its annual August card party Thursday, August 12, at 2 o'clock in the parish hall. Refreshments will be served and a number of special features are planned.

CEDAR LAKE 4-H GIRLS HOLD OUTING

An all-day picnic was held by members of the Cedar Lake 4-H Girls' club Tuesday at the home of Magda McCaw. A luncheon and swimming were enjoyed, followed with a meeting in the afternoon, at which Magda McCaw read an article on "Preserving Vegetables by Salting," and Joan Gist read one on "Winter Vegetable Storage." The girls then conducted a demonstration of the making of sauerkraut, and demonstrations on the salting of green peppers and green beans. A marshmallow roast closed the day's business.

Personals

Mr. and Mrs. P. Zalatoris are spending two weeks at their summer cottage at Lake Marie. With them is their daughter, Jenny, of Bossier City, La., wife of George Cernak, pilot instructor at Barksdale Field, La., Their son, William, is now at the 27th College Training Detachment, University of Toledo, Ohio, in the air crew.

Mr. and Mrs. Otto Luedtke, of Loon Lake are entertaining their daughter and son-in-law, Mr. and Mrs. Charles Scott and friends, Mr. and Mrs. Curtis M. Clendenning of Chicago.

The Misses Arlene Feeley of 935 North Leamington avenue, Chicago, and Ethel and Eleanor Gratzek of 436 South Maple avenue, Oak Park, Ill., have been spending their two weeks' vacation at the Dittmers' cottage at Grass Lake, next door to the William J. Meyers.

Mrs. Alice Freeman and Mae Setek of Antioch and Mrs. Hattie Marzahl of Richmond, spent the week-end at Fontana, where they were guests of Miss Sadie McCloud, staff nurse of Northwestern Military hospital, and dinner guests of Miss Helen Kupke, private secretary at Northwestern academy. On Sunday evening they attended a presentation of "Brother Rat" by the Belfry players.

Six tables of cards were in play at a meeting of the Royal Neighbor Officers' club Tuesday evening in the home of Mrs. Ralph Kinrade. Mrs. Myrtle Hufendick was co-hostess. Honors for high score went to Mmes. Myrtle Stowe, Tom Burnette, Sine Laursen, Lena Grube, Simon Simonson. The next meeting will be held at the home of Mrs. Lena Grube, with Mrs. Freda Wertz assisting.

Mrs. Alfred Lay and two children, Mrs. Arthur Cooper and son, Donald, and Mrs. Ed Sanders, all of whom are from Chicago but are spending the summer at Turtle Lake, visited Mrs. Archie Shannon, Channel Lake, Tuesday.

Mr. and Mrs. A. J. Mayland, Wilmotte, are visiting Mr. and Mrs. E. Stafford Challinor, 367 Harden street, for a week.
Valcitta Beyer of Paynesville, Minn., is visiting Louise Elms. Miss Beyer has been visiting friends at Trevor for several days.

Blue Room

If your tastes run to the exotic, yet you love the serenity of blue, why not have the walls, ceiling and floor covering of your living room all in the same hue. Naturally such a room must be furnished carefully. It must be brightened with golds and pinks. Such a room will be admired and remembered by your friends.

Reduce Moisture for Silage
The "wilting" method of making grass silage, without the use of molasses or acid preservatives, requires that the moisture content of the chopped material be reduced below 68 per cent.

Old Settlers' Picnic to Be Held At Paddock's Lake, Sunday, Aug. 15

The sons and daughters of the Old Settlers of Kenosha county, together with those of Racine and Lake counties, announce their third annual Old Settlers' picnic to be held at Paddock's Lake Sunday, August 15.

There will be a pot luck dinner at 12:00 noon. Each group should bring enough for their own family, including one hot dish; also dishes, linen, silver, and coffee. Music, dancing, swimming, and games will be enjoyed in the afternoon and evening. "Bring your entire family and meet old friends and renew acquaintances, say the committees. The pavilion will be open in case of rain.

What You Buy With WAR BONDS

Pig Boat

At sea on a submarine isn't exactly the "life of Riley." In the Battle of the Atlantic, or on the great stretches of the Pacific these sailors know the hazards of their work.

One of the spots aboard these "Pig Boats" that all crew members enjoy is the galley, or kitchen. Space limitations prevent an elaborate setup, but cooks aboard these vessels are justly proud of the meals they prepare for their crews. Your increased purchase of War Bonds helps make submarine life as pleasant as possible.

School Lunches

A school lunch program for Utah school pupils will be financed by proceeds of a 4 per cent tax on distilled liquors and wines, levied by the state legislature recently.

Use Pyrethrum

Farmers normally use about seven million pounds of pyrethrum as an insecticide.

Avoid Rubbing Wool Cloth
Garments that are fashioned of colorfast woolen cloth and that are constructed so that washing can be done satisfactorily should be given a good laundering, using lukewarm water throughout the washing, and mild suds for the cleansing. Avoid rubbing or twisting the cloth to prevent matting the fibers.

Iron With Grain

Always iron with the grain of the material, when ironing bias-cut pieces; this will avoid stretching the fabric out of shape.

Part of Bay State
Prior to 1820, when it was admitted as a state, Maine was a part of Massachusetts, though geographically separated from it.

2,000 Miles Long
The Mackenzie river in northern Canada has a length of more than 2,000 miles.

High Quality Hay
To get the most high quality hay and to do the least injury to the plants, oldest alfalfa stands should be cut first and new seedlings last.

News of the Boys . . .

(continued from page 1)

WAAC auxiliary, Elsie K. Malget of Grass Lake road.

Aux. Malget is one of 34 members of a class which recently graduated from six weeks' training in Army methods of driving, receiving instruction in care of vehicles, safety rules and maintenance work. Her visit to Silver Springs was made as a member of a convoy of 58 vehicles with approximately 400 WAACS, including officers, personnel of the school and WAAC band members. The convoy was complete in detail with field kitchen, hospital, maintenance and band units, transported in trucks, jeeps and reconnaissance cars.

A great deal of cheer has been brought to H. B. Gaston, editor and publisher of the Antioch News, who has been confined to his home by illness, through the many "kind words" and personal messages from the "Boys in Service."

The thoughtfulness of the Antioch American Legion post in making it possible for the News to send copies of the home town paper to all of the service men from this region whose addresses are available has met with deep appreciation.

Not a day goes by without several letters coming in with messages from all over the globe, and they lend a "personal touch" to the happenings in all the war zones that is indelible.

In behalf of us to all of you, thank YOU!

Pfc. Harold S. Nelson, APO 508, care of Postmaster, New York, writes that he misses the American beer and taverns, but is apparently finding some solace in visiting the English "pubs," which he notes, are "where the family goes to drink and talk over the news with their friends."

Sgt. Charles W. Rudolph, APO 760, New York City, who has been overseas for the past 13 months and whose travels have taken him to Labrador, Greenland, Iceland, the British Isles and most of North Africa, writes that he has "hopes of seeing some more of the world" before he returns.

Pvt. James H. Harvey of the U. S. Marine Corps reserve is taking basic training with the V-12 Naval Training unit at Denison university, Granville, O. With 194 privates in the Marine detachment at Denison, he is preparing to enter Officer Candidate school. Harvey, son of the Henry W. Harveys at Silver Lake, formerly attended Lake Forest college.

Pvt. "Jim" Atwood, who has been at Camp Livingston, La., for hospital training, was home from July 29 to August 3, when he left for duty.

Pvt. Gene Dietz, 36703358, APO 90, has been in town from Camp Berkeley, Texas.

Kind wishes and greetings are sent by Pvt. Tony B. Sciaccaro, Co. D-3-65, Bn., Camp Wolters, Texas.

A/C R. B. Burke, Cadet B. T. C. No. 1, Sqdn. A, Sect. 2201X, writes from Boca Raton club, Fla., that he expects to leave in about two weeks for Yale university, for training in aircraft engineering.

Sidney L. Card, S 2c, U. S. N., 63, USNCB-C-4, c/o Fleet P. O., San Francisco, Cal., says "hello" to all his friends. "Sid" has been on duty in the Pacific area for several months.

A new use has been found for the Antioch News, according to word from Pvt. Robert "Chips" Gross, 36661165, S. S. O. S., Proving Ground, Ill. "Chips" says, "It sort of takes your mind off the different jobs in the Army that you have to do but don't like doing, such as washing dishes, sweeping floors, going to school, and all that." "Chips" is enrolled in the ground supply course.

North Africa is not as people picture it, back here in the States, Tech. Sgt. Allen G. Anderson, APO No. 520 writes.

"There is a lot of farming here, mostly grain. . . . The climate is like that of Arizona, hot during the day and rather cool at night. There are many picturesque places, such as the Roman ruins and old towns. . . ."

Headquarters, European Theatre of operations: Sgt. James E. Maplethorpe, 807 Main street, Antioch, Ill., joined 30 other soldiers from Illinois at dinner at the American Red Cross Mostyn Club in London recently.

It was the second meeting for the Illinois soldiers and they spent the evening exchanging stories of home and experiences in the European Theatre of Operations. Following the dinner a telegram of greetings was sent to Governor Dwight H. Green.

Sgt. Waide and Corporal Cannon joined the other men in sending greetings to their folks back home, all saying the same thing: "We're working hard, eating well, missing all of you, and having a good time in England."

Mrs. Irving Walsh and her mother, Mrs. Walter Baethke, left Monday for West Virginia, where they will spend some time with Irving Walsh and Ray Baethke.

Pvt. Frank H. (Hy) Willett sends greetings from Jefferson Barracks, Mo., where, he says, he is in with "a swell bunch of fellows." His number and address are ASN 16129560,

20th Training Group, Sqdn. "C", Jefferson Barrack, Mo.

William Fred Chase, who is now a second class seaman, has been transferred from Great Lakes. His new address is Co. 15, Billet 133, Sec. E, USNATTC, Navy Pier, Chicago, Ill.

Herman Edlmann, apprentice seaman, just out of "boot camp" at Great Lakes Naval Training station, is spending a nine-day furlough with his mother, Mrs. Marie Edlmann, Highway 59. He dropped in at the News office to say "Howdy" Tuesday afternoon.

Pfc. D. E. MacDonald, 119th CML Impreg. No. 7257 CWS-VTC, Cp Sihert, Ala., writes, "I have been fishing, without results. It isn't anything like Grass Lake. Boy, what I wouldn't give to be back fishing there! We have pretty good swimming in the man-made lakes, nice and cool."

Pvt. John Christensen, son of Mr. and Mrs. J. H. Christensen of Lake Villa, has received an honorable discharge from the U. S. Army on medical grounds. He has two brothers in the service, Staff Sergeant Willard Christensen, and Robert Christensen, who was inducted Aug. 2, and is at Camp Grant.

Pvt. M. P. Verkest, 36049200, APO 940, care Postmaster, Seattle, Wash., wants to "thank all the swell people of our town for the way they are buying War Bonds and stamps. . . . Alaska is o. k., but sure would like to see good old Antioch."

Pfc. Leo Buchta, ASN-36737990, is stationed at Vet. Det. 914 QM Co., Camp Luna, Las Vegas, New Mexico.

Farm Hands May Take Temporary Jobs During Slack Seasons, Ruling

Illinois farm hands who encounter slack seasons on their own employers' farms will be permitted to take essential work temporarily in other sections of the State without losing their agricultural deferment status, Colonel Paul G. Armstrong, State Director of Selective Service, announced to all Illinois local boards today.

"The present nationwide shortage of manpower," stated Colonel Armstrong in his memorandum to the local boards, "requires the efficient use of our entire labor supply at all times. In occupations which have varying seasonal requirements, workers should be encouraged to make temporary shifts during slack seasons, to other essential lines of work."

"On many Illinois farms, a slack season will occur from about August 1 to October 1, and from November 15 to March 15. During such periods many farm workers can be temporarily released for other work in their own communities or other parts of the State. This extra work can be seasonal harvesting or processing of crops such as sweet corn, tomatoes, and other vegetable, fruit or field crops, or for logging, other timber work or war production work in industry if no farm work is readily available."

"Agricultural registrants should be encouraged to seek essential employment during such slack periods in their own work, and thus to utilize fully our labor supply. The State Director wishes to emphasize that the classification of registrants in Class II-C and Class III-C will not be affected because they engage temporarily in other essential work during the slack season in farm work."

"Local boards should cooperate with county U. S. D. A. war boards in connection with this critical labor shortage."

"If agricultural employment is not readily available in his own slack season, the farm worker is permitted to accept a job in a war production plant in order that his mechanical ability be put to good use by an essential industry."

"It is necessary, of course, for every farm registrant to keep in close contact with his local board and to notify the board of his temporary change of address and occupation."

Early Orreries

The evolution of the mechanical planetarium, the correct name for the orrery, is a difficult one to trace, descriptions prior to those of the early 18th century being often ambiguous. For example, in 1232, the sultan of Egypt presented to Frederick II of Germany a timepiece which "resembled internally a celestial globe in which Sun, Moon and planets moved, being impelled by weights and wheels, so that they pointed out the hour, day and night, with certainty."

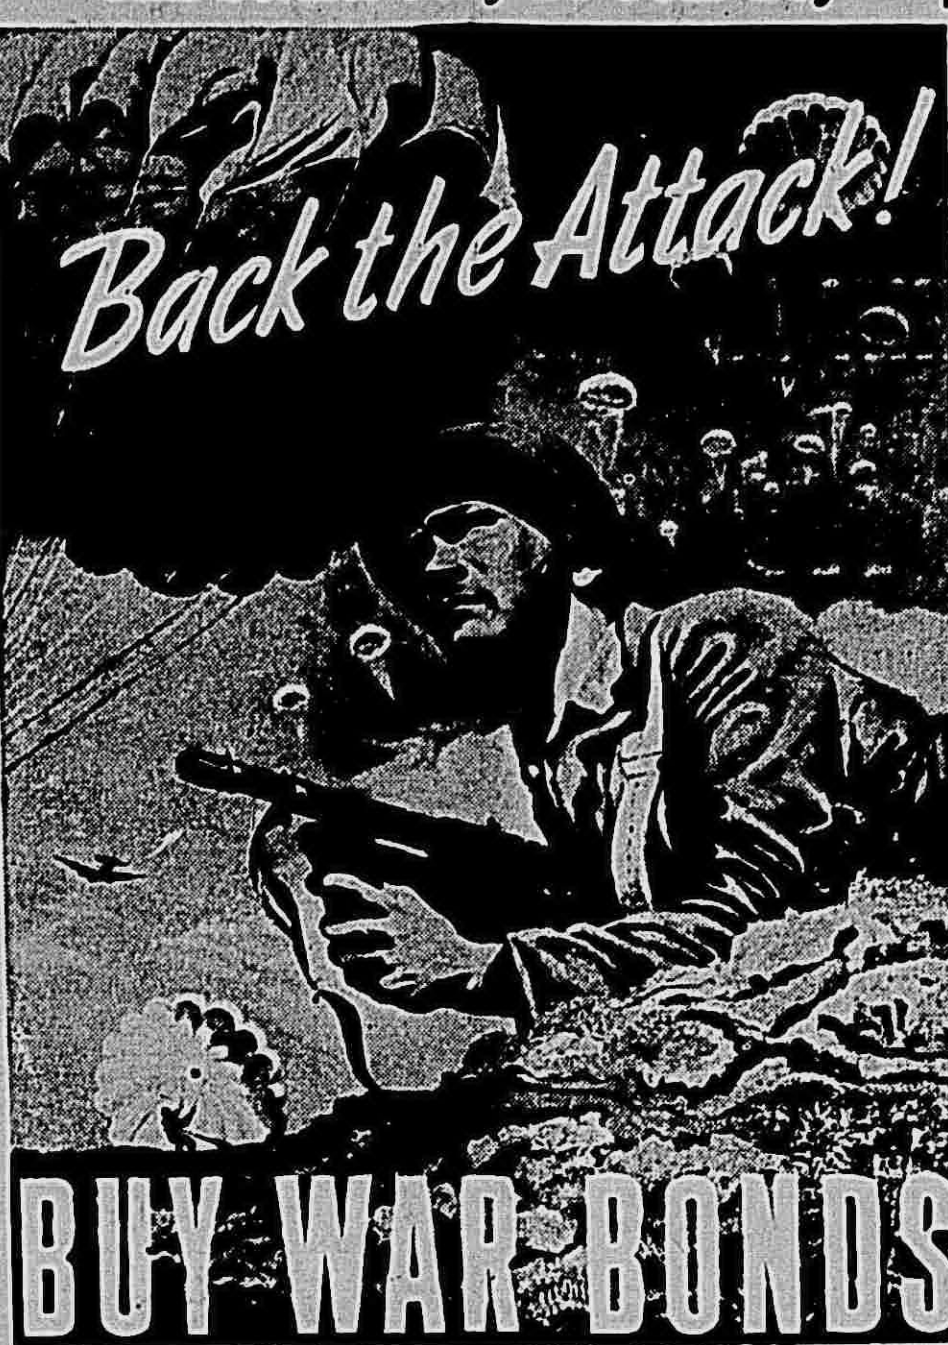

Cool Season Crops

Chinese cabbage, the endives, kale and collards are cool-season crops which have rather long periods of growth. For this reason they are hard to grow in the spring, but relatively easy to grow in the fall. If properly stored, these crops may be used during the entire fall and far into the winter.

Indians Made Citizens

An act of congress of June 2, 1924, declared all American-born Indians citizens of the United States whether living on reservations or not. Prior to 1924 their citizenship was governed by the act of 1887, amended in 1890, which granted citizenship only to Indians to whom allotments of lands in severalty had been made.

This Soldier May Be Your Boy

I've got a home, too, Mister! Every extra bond you buy through the Payroll Savings Plan will help me get back to it. "Figure it out yourself."

Payroll Savings Buys Comfort For Your Fighting Relatives

Not all of your payroll savings and other War Bond purchases are used for tanks, planes and gunpowder. A part of your investment goes for the comfort of your father, brother, son or friend.

Put your war bond buying through your payroll savings plan on a family basis to do the most effective job in providing for the care and safety of your men in the armed forces. Figure it out for yourself how much beyond 10 per cent of the aggregate income of your family you can put into war bonds above the cost of the necessities of life.

Remember a single \$18.75 war bond will buy for a fighting soldier on the front: Two cotton undershirts at 44 cents; two pairs of cotton shorts at 76 cents; two pairs of cotton socks at 34 cents; one pair of shoes at \$4.31; a cotton khaki shirt at \$4.64; pair twill trousers at \$4.16; one web waist belt at 23 cents; two cotton neckties at 44 cents; 2 khaki caps at \$1.26 and one twill jacket at \$2.16. Total \$18.74.

An \$18.75 war bond should make a marine comfortable for the night with a 23-pound mattress at \$4.20; two blankets at \$13.54; a pillow at 56 cents and two pillow cases at 30 cents. Total \$18.60.

Or he could be provided with a rubber poncho at \$4.77; a helmet with its lining and other items of its assembly at \$5.02; a rifle cartridge belt at \$2.15; a marine corps pack consisting of haversack, knapsack and suspenders at \$5.10; a canteen and its cover at \$1.05. Total \$18.69.

Those of you who worry about the comfort of your boy in service can help insure his comfort by buying war bonds. And 10 years from now you'll take back \$25 for every \$18.75 you put in.

Posting of Prices and Points Called Boon to Dealer and Customer

Meat dealers and grocers are urged again by the War Price and Rationing Board to post in a conspicuous place the current OPA official consumer table of point values for meats, fats, canned fish and dairy products. Some dealers apparently are not yet aware that they are required by law to post point values as well as prices. Also each store must display a sign to show whether it is Class 1, 2, 3, or 4, according to the ceiling prices it may charge.

"There is no more effective way of speeding up service and reducing delays of rationing than to display the point table in a prominent place," say OPA officials. "Customers then may tell at a glance the point value of the various meats and other rationed items and determine beforehand just what items they desire. If the table is not available, housewives are obliged to obtain point values from clerks, with resulting delays in service."

They also suggested that food retailers keep the trade point values in a handy spot because some meats sold at retail are listed only on the trade table, and customers should be able to refer to it. In addition, the retailer needs the trade table to check the point value of purchases from his supplier.

The meats-fats rationing regulation (Ration Order 160 and the Processed Food Regulation (Ration Order 13)) both require retailers to post the consumer table for each ration period. Customers should insist that it be displayed. The consumer table is available at the local post office and the local board while the trade table may be obtained only at the local board.

New Canadian Mill to Process Oils

A new \$500,000 plant in Hamilton, Ont., Canada, for the production of oil from flaxseed, soybeans and copra, has been erected with ultimate daily production of 225 tons. The flaxseed is to be brought in by boat from western Canada, while the copra will come from the South seas. Linseed oil, produced from flaxseed, and soybean oil, made from soybeans, are important materials in the paint industry and also are now largely used for edible purposes, while the coconut oil made from copra is important in the manufacture of soap and has many other uses.

Occult Power of Gems

Many were the occult and mystic powers attributed to gems in ancient and medieval times, and many were the fantastic legends concerning them. These were not merely superstitions of the more ignorant populace, for they were recorded in good faith by the most eminent authors of their day such as Theophrastus, Pliny and Boetius.

Swat That Moth

It takes one pound of moth preventive to 100 cubic feet to protect woollens against clothes moths. "Moth balls" should be hung in a cloth sack from the top of the closet.

Farm Machinery

A preliminary report of the annual canvass of manufacturers by the census bureau shows that the total value of farm equipment and related products manufactured in 1942 amounted to \$763,104,894 as compared with \$746,367,968 in 1941, and \$561,697,935 in 1940.

Firm Seed Bed

A firm mellow seedbed is essential in keeping seeding rates low. A firm seedbed holds moisture better than does a loose one, and lessens the risk of failure in drouth years. Seed should be covered shallow, about one-quarter inch is ideal.

Best Crower

The best crower among baryard fowls, according to radio tests, is the Rhode Island Red.

Saves Feed Bills

A good grass range for growing poultry can save up to 12 per cent on the feed bills.

WEEKLY NEWS ANALYSIS

Mussolini's Exit Marks End of an Era For Fascism; Italy Ponders New Setup; Reds Continue Strong Westward Drive; WMC Rule Effects 'Super Critical' Jobs

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.) Released by Western Newspaper Union.

Seated at right, General Cotti-Porcini, commander of the Napoli division of the Italian army in Sicily, fell as prisoner of war to the advancing British army. Allied armies finally encountered stiff resistance in the northeastern area.

MUSSOLINI: No Caesar

Biggest news story of the war—that was Benito Mussolini's resignation as Italy's prime minister and strong man for 21 years. Taking his place was Fascism's shadow, Marshal Pietro Badoglio, avowedly Mussolini's bitter enemy, yet the builder of his armies and his conqueror of Ethiopia.

Mussolini left the scene with Italy's empire lost; with Axis armies pocketed in the northeastern corner of Sicily by Allied forces, and with the Italian mainland afire from bombs. As he left, King Victor Emmanuel called on all Italians to stand firm in the most fateful hour of the country's destiny. Italy again will find the road of the future, he said.

Twenty-one years ago, Mussolini took over the Italian government following a march of 8,000 of his Blackshirts on Rome. Italy writhed in disorder, her industries crippled from strikes, and her unemployed war veterans in riot. In the crisis, King Victor turned to Mussolini, and thus did the strong man come to power.

He restored order. He created public works and set up the corporate state, in which all economic groups are represented in government. He settled papal claims to the amount of \$2 million dollars and recognized the Vatican's sovereignty. But it was over empire that Mussolini stumbled.

Take Up Last Line

At the beginning of the final stage of resistance in Sicily, the Axis line roughly ran from the east coast port of Catania westward to the mountains, and then curved northward to the shores of the Tyrrhenian sea.

Near Catania, strong Axis forces held firm after early tank battles had failed to pierce their lines. To the west, Canadian troops picked their way through rugged terrain to advance on the Axis outpost of Regalbuto, which huddles behind mountainous ranges.

After seizing the big Sicilian port of Palermo, Gen. George S. Patton's American Seventh army drove westward along the Tyrrhenian coast toward the last Axis defenses defending Messina, which lies at the extreme tip of the island, two miles from the Italian mainland.

German attempts to reinforce Axis troops in Sicily by means of giant Junkers and Messerschmitt three- and six-engine transport planes met stiff opposition from the Allies.

RUSSIA: Reds Press In

With three columns driving in from the north, east and south, and another force swinging wide to the west to cut off the rear, Russian armies tightened their hold on the German-held bulge of Orel.

The westward drive threatened the railroad supply base of Bryansk. Severance of the line meant interruption in the flow of supplies being shunted to German troops stubbornly resisting the Reds' three-cornered drive on Orel.

While the Russians pressed slowly against German defenses at Orel, the Nazis told of a massive Red offensive south of Lake Ladoga on the Finnish front and below Leningrad. The Germans also said strong Russian attacks at Novorossisk in the northwestern Caucasus had been repelled.

SOUTHWEST PACIFIC: Jungle Fighting

Working their way through jungle brush, American doughboys braved hidden Japanese machine gun outposts to advance within range of the enemy's main perimeter of defenses around the strategic airfield of Munda in the Solomon islands.

As the troops crept closer to their objective, the U. S. air force continued furnishing heavy support, dive-bombers roaring in to pound the Japs' nest of wooden and earthen pill boxes.

In New Guinea, Liberator and Mitchell bombers gave Salamaua a going over, dropping 250 tons of explosives in two days. As the air force softened up this important enemy base, Allied ground troops fought off Jap patrols to advance eastward to the town.

MANPOWER: 'Super-Critical'

Over and above the 3,000 jobs that the War Manpower commission has designated essential, it has prepared a list of "super-critical" occupations for which draft boards will be asked to give special consideration, WMC Chairman Paul V. McNutt announced.

The new "super-critical" list will not replace the old list, McNutt explained, but rather will be given preferential ranking above it. Draft boards will not be ordered to exempt workers in the "super-critical" occupations because the boards have this power under law.

The new "super-critical" classification followed WMC plans for allowing workers to transfer to other plants to receive higher pay for the same jobs.

HARVEST: Production Down

Despite unfavorable spring weather, the nation's farmers have all but completed their harvesting of spring wheat, being but only one week behind normal schedule, according to federal crop statisticians. But as of July 1, total production for 1943 was estimated at 790 million bushels against 981 million last year.

Only in Illinois, Indiana and Ohio did harvesting fall back to any extent. Through Oklahoma, Texas and Kansas the wheat was cleaned up according to schedule, and work in Nebraska and Missouri progressed favorably.

Estimations of the winter wheat harvesting showed Kansas with a crop of 150 million bushels, against 206 million last year; Nebraska with 53 million against 68 million; Oklahoma with 32 million against 57 million, and Texas with 33 million against 47 million. Illinois with 17 million against 12 million was credited with the biggest advance over last year.

RATIONING: Mark Up Butter

To keep purchases in line with supplies, the point value of butter was raised by 2 to 10 points per pound for the period ending September 4, the Office of Price Administration announced. The action followed civilian purchases in excess of allotments during the last few months.

Housewives switching to other fats will be able to obtain shortening, lard and cooking and salad oils at one point less. Margarine remains unchanged at four points.

BOMBERS:

Strike Nazi Industry

Heavy round-the-clock raids on Hitler's European fortress got under way again with a U. S. raid on the Nazis' Norwegian submarine port of Trondheim and a neighboring aluminum plant.

No sooner had the bombers alighted than fresh squadrons took off, this time for northern Germany. The RAF pointed bomber noses toward the great North sea port of Hamburg and dropped 2,300 tons of explosives. Another British force struck hard at the gigantic Krupp arms works at Essen.

Following in the wake of the British, U. S. airmen worked over Hamburg in daylight. Continuing the concentrated assault on German industry, other formations plastered rubber factories at Hanover and the Focke-Wulf aircraft assembly plant at Warnemuende. Shipyards were hit at the German naval station of Kiel.

Almost 60 Allied planes were lost in the raids, the bombers encountering heavy anti-aircraft fire to a height of from 20,000 to 35,000 feet, and fleets of fighters.

95 Billion!

The American home front's tremendous effort is best grasped by congressional appropriations for U. S. war spending for the next 12 months.

Approximately 88 billion dollars was appropriated for expenditure on tanks, planes, guns, etc., and for the purchase of food, etc., for our embattled allies. In the fiscal year ended last June, 73 billion dollars was spent for war purposes.

Besides the 88 billion dollars for the war, an additional seven billion dollars was appropriated for other government expenditure. Of the total amount, three billion dollars will be used for payment of interest on the public debt, which amounted to 140 billion dollars last June.

All told, government expenditures have been estimated at 95 billion, 330 million dollars for the next 12 months, greater than the total national income in peak years of prosperity.

WHEAT: Stocks for Feed

Feeling that the present corn shortage is the gravest emergency facing the country, and that any future civilian wheat scarcity can be met out of Canada's record production, the Commodity Credit corporation has determined to raise practically all limits on its sales of wheat stocks for feed.

Under the new regulation made in agreement with the War Food administration, only 30 days trade and 90 days feeders inventories will be held. The CCC had 215 million bushels of grain with which to start the program, and it was expected that stocks would be augmented by purchases of excess elevator supplies. Since wheat generally was selling above the CCC loan rate, it was not thought that stocks could be built from this source.

At the same time, CCC divulged it was seeking to import additional grain from Canada by rail. Approximately 154 million bushels are to be shipped over the Great Lakes Coastal shipment from Canada to American Pacific ports also was being sought.

TREASON: Broadcasters Named

Eight American citizens charged with broadcasting Axis propaganda from Germany and Italy were indicted by a federal grand jury for treason. To secure the indictment the government presented phonograph recordings of talks, and acquaintances identified their voices.

Among the eight, six of the accused are native Americans and two are naturalized citizens of German birth. Most prominent of those in

Indicted for broadcasting enemy propaganda were (from left to right) Douglas Chandler, Wilhelm Kallenbach and Ezra Pound.

dicted is Ezra Pound, 57-year-old poet and writer who has lived in England, France and Italy since 1911. He was said to be the only one of the group broadcasting from Italy.

Three of the group, including a woman, were former newspaper reporters. According to the indictments, the broadcasts included denunciation of communism and the Jews, criticism of the American war program, and praise of Germany and Italy.

STRIKE: Test New Law

First test of the new congressional anti-strike law came with a Pennsylvania grand jury's indictment of 30 United Mine Workers local officials and members for conspiring and acting to interrupt production in government-held pits. Conviction on the charges would make the defendants liable to fines up to \$5,000 or sentences up to a year in jail.

Life of Mower Can Be Prolonged

It Is Wise to Repair And Oil Machine Early

Mower breakdowns during hay harvesting are expensive in labor, time and farm crop losses, and new mowers are increasingly hard to get. But old mowers will give many years of good service if given proper care.

A frequent cause of poor work is misalignment of the cutter bar. With the mower tongue end raised 30 inches, stretch a cord tightly across the top center of the Pitman bar past the end of the cutter bar. The outer end of the cutter bar, as measured at the knife rivets, should be ahead of the string a fourth of an inch for every foot length of cutter bar. This setting is called the "lead" and is necessary to give alignment of the cutting parts in heavy grass. Some mowers provide an eccentric bushing adjustment at the cutter bar hinge pin; in others the worn hinge pins will have to be replaced.

Make sure that the knife sections register in the center of the guards at the extremes of the Pitman bar stroke. Failure in this causes pulled grass and heavy cutting. Incorrect Pitman length, hinge pin wear or improper lead are the cause for poor register.

The back of the knife is held by wearing plates while the knife clips reach over the bar and hold the front edge of the knife down against the guard or shear plates. When the wear plates or clips become

Grease keeps your mower running smoothly. Use the correct grade.

worn, the knife does not make close contact, thus causing heavy draft and uneven cutting. Wear plates can be moved ahead to take up the wear by loosening the guard bolts and driving the plate forward. Knife clips can be driven down with a hammer. Do this with the knife pulled back from under the clip and use the knife end as a measure of clip tightness. With all clips properly adjusted, the knife should slide back and forth by hand but there should be no play. Severe wear of the knife head ball joint will cause broken knives and shearing of the knife head rivets. A new knife head is usually necessary for correction.

Worn out guard or shear plates can be replaced without removing the guards. A guard anvil will be found extremely useful here. Discarding guards because of worn shear plates is a waste of precious metal.

For adjustments peculiar to a particular mower, see the mower instruction book.

Vaccinating Calves

For Bang's Disease

"Many farmers have heard of the good results obtained from calfhood vaccination for Bang's disease, and immediately want to apply it to the older animals in their herds as well," states the report from the American Foundation for Animal Health. "This presents an entirely different problem. Sometimes older vaccinated animals do not 'clear up,' and later on when herds are tested it becomes difficult to distinguish them from natural reactors. The question of which animals should be vaccinated and when, are matters to be determined by a veterinarian.

"Calfhood vaccination has been a great aid in clearing up Bang's disease in individual herds, but our job today is to eradicate it completely. That is why we must pursue the cow-testing program on an area basis until all major farming sections have been cleared. More than 400 counties have already been certified, and this number will be greatly increased before the war is over. When Bang's disease has been finally wiped out it will mean many millions in additional profits to American farmers."

Rural Briefs

Fresh pork drippings are good for seasoning vegetables and for making gravy; they may be clarified and used in place of lard for cooking fat.

Extra sugar for canning will probably be made available again this summer, but sugar for jams, preserves and jellies should be accumulated right now from your regular sugar ration.

HIGHLIGHTS... in the week's news

BEER: Inability of brewers to get corn and other grains is resulting in a shortage of beer that will become increasingly acute as reserves are used up, industry leaders say.

MILK: Rationing of fluid milk is likely by autumn, says a statement from the department of agriculture, forecasting a fall slump in production of 1 to 3 per cent.

CHINA: The Japanese army authorities have executed at least 91 Chinese families for assisting American airmen who participated in the raid on Tokyo in 1942, a statement from Chungking says.

POLAND: The German army is constructing a line of fortifications in Poland, 400 miles back from the present Russian battle lines.

Ed Murrow

talks to us from London

Excerpt from broadcast from London by Edward Murrow, commentator for the Columbia Broadcasting System in London.

DID YOU ever see an army—a battered, broken, beaten, bitter army—come home?

Did you ever hear strong men with the mud and blood still on them asking, "Where were our tanks? Why did we have no planes? Why no armor-piercing ammunition?"

Well, I have—twice. When friends of mine came home from Norway and from Dunkerque.

It's not a pretty sight. But I can't help thinking about it today, when it's my turn to talk about War Bonds.

You've been told to buy War Bonds—to join a 10% club—to help yourself as well as your country, and get \$4 for

every \$3 you put in. Those may all be good arguments. But from over here, things look a little different.

There are a lot of American boys over here now—hundreds of thousands more are coming. Together with their Allies, they are preparing to undertake the most difficult of all military operations—a sea-born landing on the most heavily-defended coast in the world.

You want those boys to win. You want them to have the necessary gear—and better gear than their enemies have. You want bridgeheads bombed out for them. You want a fighter-plane umbrella over them while they land.

And if you want it hard enough to help pay for all the stuff those boys are going to need, do this: Even though you're doing about all you can, take another look and see if there isn't a little more that you can spare for War Bonds—*now!*

* * *

WHY U. S. WAR BONDS ARE THE SAFEST PLACE YOU CAN PUT YOUR MONEY!

1. They are obligations of the United States. If this isn't safe, nothing is.
2. For every \$3 you invest in War Bonds you get back \$4 at the end of ten years.
3. They do not fluctuate in dollar value—are never worth less than you pay for them.
4. You can name one individual either as co-owner or as beneficiary *right on the face of the bond.*
5. Your savings in War Bonds cannot be lost or stolen. Each bond is registered at the Treasury Department.

EVERYBODY— EVERY PAYDAY 10% IN WAR BONDS

Chicago Defense Rental Area Sub-Office Moved

The Chicago Defense Rental area sub-office has been moved from 220 Washington street, Waukegan, to the City Hall, 106 Utica street, Waukegan. Lake county has a 97 per cent compliance record, according to Oscar Soderquist, supervising rent inspector.

How River Got Its Name

Feather river in California was so named by its discoverers because of the quantities of wild duck feathers they found floating on its surface.
